Title of Dissertation: Your Diploma Thesis Title
Code of Dissertation: Dissertation Code
Student's full name: Your Full Name
Supervisor's full name: Supervisor's Full Name
Date of undertaking: DD-MM-YYYY
Date of completion: 29-06-2026

I hereby affirm the authorship of this paper as well as the acknowledgement and credit of whichever assistance I received in its composition. I have, furthermore, noted the various sources from which I extracted data, ideas, visual or written material, in paraphrase or exact quotation. Moreover, I affirm the exclusive composition of this paper by myself only, for the purpose of it being a dissertation, in the Department of Information and Electronic Engineering of the I.H.U.

The approval of this dissertation by the Department of Information and Electronic Engineering of the International Hellenic University, does not necessarily entail the adoption of the author's views, on behalf of the Department.

To my family

Abstract

Write your English abstract here. Summarise the thesis, covering the motivation, methodology, key results, and conclusions.

Περίληψη

Γράψτε εδώ την περίληψη της διατριβής σας στα Ελληνικά.

Acknowledgments

I would like to express my gratitude to...

Chapter 1: Introduction

1.1 Motivation

Write your motivation here. Explain why the topic is important and what problem you are addressing.

1.2 Objectives and Scope

State the objectives and scope of your thesis.

- **Objective 1:** Description of the first objective.
- **Objective 2:** Description of the second objective.
- **Objective 3:** Description of the third objective.

1.3 Structure of the Thesis

This thesis is structured as follows. Chapter 2 provides the necessary background. Chapter 3 describes the methodology. The results are presented and discussed, followed by conclusions and future work.

Chapter 2: Background

Provide the theoretical background and related work here. Include citations to relevant literature [1].

2.1 Key Concepts

Describe the key concepts needed to understand your work.

2.2 Related Work

Summarise related work in the field.

Chapter 3: Methodology

Describe your approach, design, and implementation.

3.1 Architecture

Explain the overall architecture of your system.

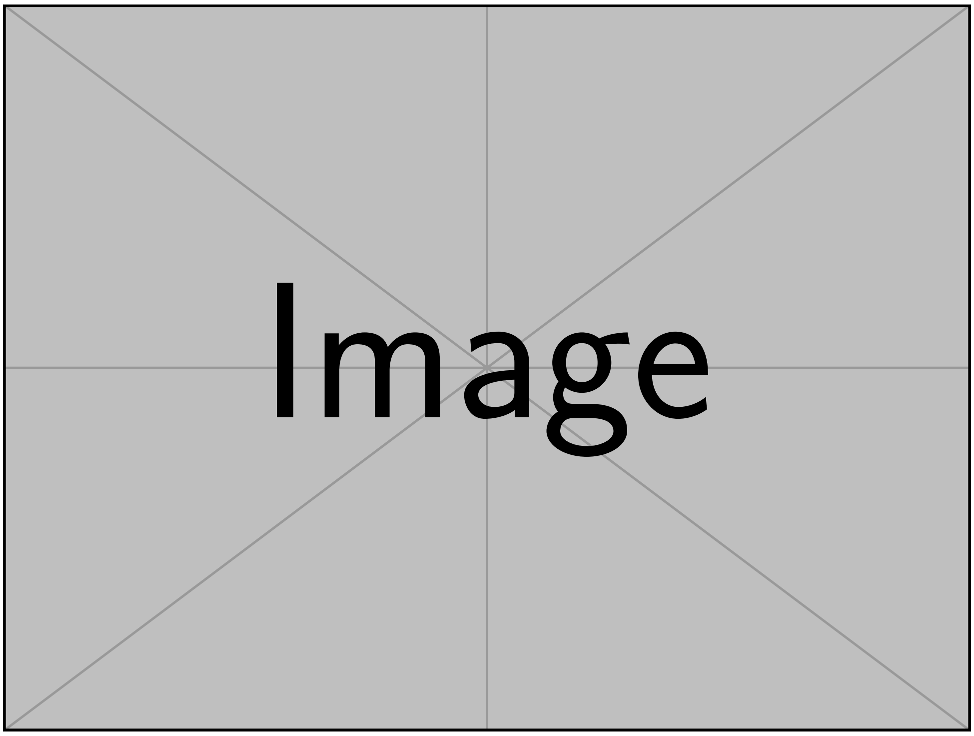

Figure 3.1: System architecture diagram.

3.2 Implementation Details

Provide details about the implementation.

BIBLIOGRAPHY

Appendix A: Supplementary Material

This appendix contains supplementary material for the thesis.

A.1 Code Snippet

The following Python code demonstrates a simple example:

```python
import numpy as np

def hello_world(name: str) -> str:
    return f"Hello, {name}!"

def matrix_multiply(A: np.ndarray, B: np.ndarray) -> np.ndarray:
    return A @ B

if __name__ == "__main__":
    print(hello_world("IEEE Thesis"))
```

Listing 1: Example Python code snippet.

A.2 Additional Figures

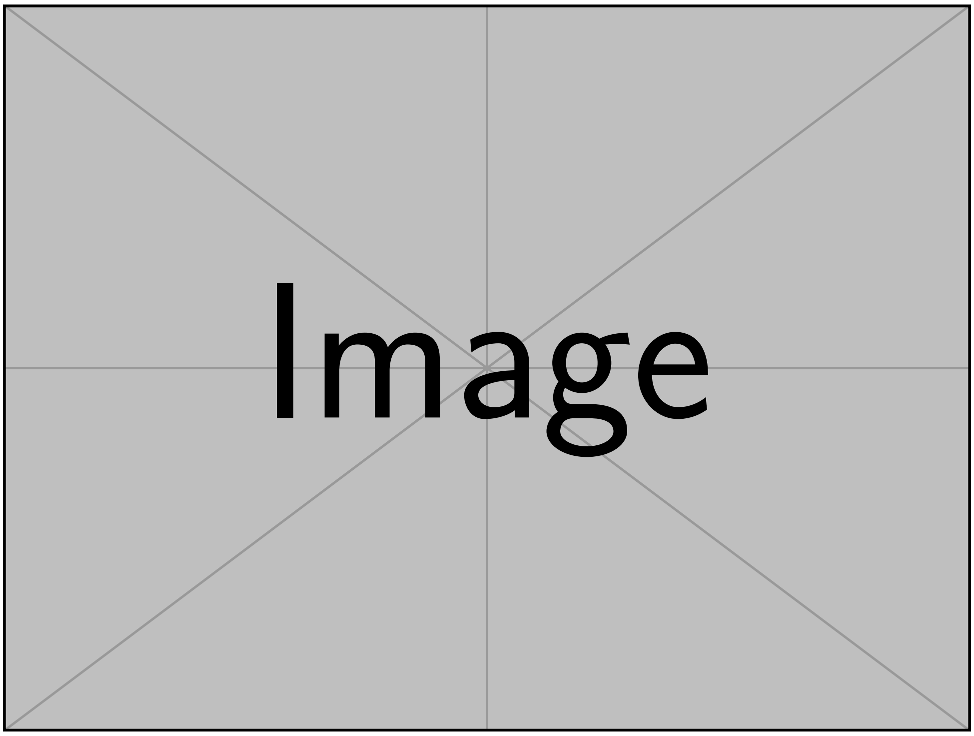

Figure A.1: An example figure for the appendix.
